EXPERIENCE

GREGG DISTRIBUTORS LTD. | SOFTWARE DEVELOPER

Edmonton, AB | April 2023 – Present

- Skilled in working with large databases, including migrating and optimizing database structures.
- Optimized database structures and implemented performance enhancements, reducing query execution time by 30% and improving overall system responsiveness.
- Developed an in-house reporting software that automated data analysis and generated actionable insights, leading to a 25% reduction in operational costs and improved decision-making processes.
- Enhancing the functionality of three e-commerce websites by implementing new features to optimize site navigation and streamline the checkout process, resulting in increased order volumes and improved order delivery accuracy by 22%.
- Technologies: Angular, React, TypeScript, Vue, MySQL, JQuery, CSS, and GraphQL.

B/D ELECTRIC SYSTEMS LTD. | SOFTWARE DEVELOPER

Freelance | Feb 2023 – April 2023

- Built and designed the frontend of the company site using React.js, TailwindCSS, and Next.js.
- Developed the backend using the Next.js API, eliminating the need for an external backend server and used Sanity CMS for the database.
- Led the development of the company website, creating a modern and user-friendly platform that markedly improved the overall online presence. This initiative directly contributed to a substantial 53% growth in work orders for the company.
- Technologies: React, Next, TailwindCSS, Sanity, Vercel, Github

JSM MASTERCLASS | SOFTWARE DEVELOPER

Remote / Open Source | June 2022 – Jan. 2023

- Develop projects with a 2-5 person team from design to deployment.
- Committed work daily to repositories using git and contributing in code review process while producing weekly project reports to update clients and superiors on the process.
- Designing full stack mobile friendly web applications from client specifications on design and functionality exceeding client expectations.
- Technologies: React, Next, Sanity, TailwindCSS, Redux Toolkit, API's, Git/Github, Vercel, Figma, Node

ALPHA CONSTRUCTION INC. | SITE SUPERINTENDENT / PROJECT COORDINATOR

July 2016 – July 2021

- Collaborated on profitable projects valued between 18- 25 million CAD.
- Monitor and report project progress. Estimated costs and ensured project was on budget while discovering ways to increase profits by an average of 20% per project.
- Demonstrated leadership qualities by communicating with team members, clients, sub-contractors and suppliers to achieve deliverable projects to 100% completion on or ahead of schedule.
